

Image				Model No.	Z91	Type	Home use					
				Product position	high class	Innovation degree	★★★★	Marketing time	2023.05			
				Main functions	Backrest	2D massage hand						
						Automatic shoulder detection with 4 wheel massage hands, offers better shoulder & neck massage						
						Integrated SL track rail from neck to thigh						
						20 automatic modes						
						24V carbon fiber heating						
						Zero gravity and space saving design						
						waist designed and seat side designed with 2 valves, 6 airbags massage						
						Backrest reclines and declines by rail so as to extend						
					Shoulder	2 valve, 4 airbags massage						
						designed with bluetooth, control APP, artificial intelligent control(use Tmall Genie or iFLYTEK)						
					Armrest	2valves, 8 airbags massage						
						Designed wireles charging						
					Footrest	designed with the electric telescopic function, massage your knee						
						Leg electric telescopic technology is utilized to accurately detect the length of legs and feet, while also incorporating a stretching massage program for optimal results.						
						Designed with 5 valves, 24 airbags						
Leg parts are designed with airbag massage on two sides, leg kneading												
24V carbon fiber heating												
closed foot designed with 3 groups roller												
Additional	Designed with 7 inches PAD touch screen											
	designed with rotating navigation fast control buttons											
	24V safe voltage; 8A super safe power switch											
	Intelligent voice control											
	wireless											
	Designed with LED lights to perform cozy home environment											
	Use PU with 5 years hydrolysis resistance、 whole chair package											
Main color options	  											
Armrest type	Design of blow-molded packaging. Decorative trim for injection molded components											
Selling point 1	Integrated SL track rail from neck to thigh											
Selling point 2	3D massage hand											
Selling point 3	10 valves with 42 airbags											
Specification	Voltge	220V	G.W.	125KGS	Product size	1870*750*840mm		Loading Qty	54pcs			
	Power	180W	N.W.	110KGS								
Packing size	1970*760*850mms				Note:
